gtss.software

Founding Engineer at GTSS with **4+ years** shipping production software for real clients across Kenya. I don't prototype — I architect and deploy complete systems: payments, auth, compliance, and scale. Specialized in **enterprise-grade SaaS**, **fintech integrations** (M-Pesa/Daraja, eTIMS, IntaSend), and high-performance Next.js platforms. **50+ production systems** live · **188+ reusable components** · **1,783 GitHub contributions** in the last year.

EXPERIENCE

Founding Engineer
2021 – Present

GTSS – Great Thumbs Software Solutions · gtss.software

- Founded and operate a software studio that has shipped **50+ production systems** for clients across Kenya — from church management to gig economy marketplaces
- Architected and maintain a **188+ component design system** enabling rapid, consistent deployment with architectural integrity across all GTSS products
- Integrated M-Pesa Daraja, IntaSend, eTIMS, and PayPal into client platforms; built multi-role RBAC (up to 28 roles), KYC flows, and GDPR-compliant data pipelines

Software Engineer
2024 – 2025

Beren Software Bootcamp

- Built RentHub — a property management platform (web + Android) in production; participated in agile sprints, code reviews, and CI/CD deployments

Banking Operations Associate
2023 – 2024

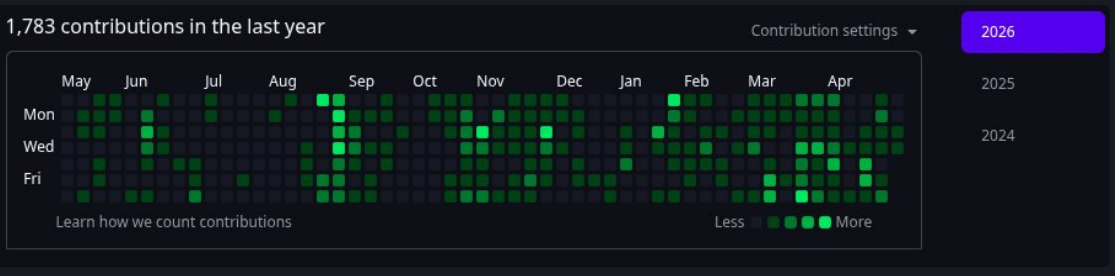

Equity Bank Kenya · Fintech Domain Expertise

- Gained hands-on KYC compliance, M-Banking enrollment, and enterprise security experience — directly applied in every fintech product built at GTSS

CLIENT TESTIMONIALS

> *"Elvin built our entire German Virtual School platform from scratch — video classrooms, grading, attendance, and GDPR compliance. The quality and speed of delivery were beyond what we expected from a single engineer."*

Harvey Gitonga
German Virtual School · Nairobi

> *"The Concept Builders platform processes M-Pesa and PayPal payments seamlessly. Our architectural plan sales went fully digital and we onboarded clients we couldn't reach before."*
